Introduction

The Bank trusts effective risk management together with better corporate governance contributes to the stability and sustainable credibility of the Bank. Therefore, the Bank places great emphasis continually on improving risk management processes and on having sufficient level of capital to support its risk absorption capacity and business expansions.

Based on historical data and careful analysis of market behavioural factors, the Bank is affirmative that effective investment in better risk management systems and processes would facilitate to mitigate the credit risk, market risk and the operational risk factors face by the Bank.

Further use of market discipline is deemed to be an important driver in the enhancement of the risk management system from Bank as well as stakeholders perspective. Therefore, the Bank believes comprehensive disclosure of capital level, credit risk, market and operational risk level would fulfill the expectations of the regulators as well as the investors.

Scope of Basel III Framework

The Basel Committee on Bank Supervision (BCBS) has implemented a set of capital, liquidity and funding reforms known as "Basel III". The objectives of reforms are to increase the quality, consistency and transparency of capital to enhance the risk management framework.

Accordingly, Central Bank of Sri Lanka has issued Direction No. 01 of 2016 on Capital Requirement under Basel III for Licensed Commercial Banks (LCB's) and Licensed Specialized Banks (LSB's) on 29th December 2016. As per the direction, Capital Requirements applicable for a Licensed Commercial Bank from 1st July 2017 onwards consist of three pillars.

Pillar 1

• Minimum Capital Requirements and Buffers - Credit Risk, Market Risk & Operational Risk

• Maintain Adequate Capital above the Minimum Requirement (ICAAP) - Additonal Risks

• Disclosure Requirements - Regular disclosure to the market covering both qualitative and quantitative discloures on Capital, Liqudity and Risk

Pillar 1 - Minimum Capital Requirements and Buffers

Commencing from 01st July 2017, every LCB & LSB has to comply with minimum capital ratios and the buffers as prescribed in the direction. Required minimum capitals ratios are varying among the banks depending on the size of the asset base. For the purpose of the direction Central Bank of Sri Lanka has identified Banks with over Rs.500 billion asset base as Domestic Systemically Important Banks (D-SIB's) and prescribed higher minimum Capital buffers.

Accordingly, banks have to maintain capital ratios and the buffers as prescribed in the below tables at all time.

Minimum Capital Ratio Requirement for Banks with Assets of Rs.500 billion and above (Table 1)

Components of Capital	01.07.2017	01.01.2018	01.01.2019
Common Equity Tier 1 Including Capital Conservation Buffer and Capital Surcharge on Domestic Systemically Important Banks	6.250%	7.375%	8.500%
Total Tier 1 Including Capital Conservation Buffer and Capital Surcharge on Domestic Systemically Important Banks	7.750%	8.875%	10.000%
Total Capital Ratio Including Capital Conservation Buffer and Capital Surcharge on Domestic Systemically Important Banks	11.750%	12.875%	14.000%

Minimum Capital Ratio Requirement for Banks with Assets less than Rs.500 billion (Table 2)

Components of Capital	01.07.2017	01.01.2018	01.01.2019
Common Equity Tier 1 Including Capital Conservation Buffer	5.750%	6.375%	7.000%
Total Tier 1 Including Capital Conservation Buffer	7.250%	7.875%	8.500%
Total Capital Ratio Including Capital Conservation Buffer	11.250%	11.875%	12.500%

Since the Bank's asset base is below Rs.500 billion at the moment, minimum capital ratio requirements stipulated in Table 2 is applicable. As a player in a highly regulated industry, the Bank has to design and execute strategies at the right time in order to accomplish the business goals while achieving capital standards set by the regulator.

Pillar 2 - Maintain Adequate Capital above the Minimum Requirement (ICAAP)

The Bank has to maintain adequate capital to cover its all risk exposures as specified in the direction. Under Pillar 2, a Board approved ICAAP document need to be submitted to Central Bank of Sri Lanka for supervisory review process. ICAAP lets banks to identify, analyze and quantify its risk exposures using different methodologies, techniques and to quantify required level of capital to absorb the risks.

Further under pillar 2, Banks are instructed to scrutinize different type of risks which are not covered/fully captured under Pillar 1. Accordingly, following risk categories also need to be quantified and allocation of capital need to be done in computing the pillar 2 Capital Ratios.

- Risks not fully captured under Pillar 1 Concentration risk (credit risk), interest rate/rate of return risk in the banking book (market risk) etc.
- Risk types not covered under Pillar 1 Liquidity risk, concentration risk, reputational risk, compliance risk, strategic and business risk, residual risk. etc.

The Bank has already developed an ICAAP policy and framework which closely indicate the risk and capital assessment processes and ensures that adequate level of capital are maintained to support the Bank's current and projected demand for capital under expected and stressed conditions.

Pillar 3 - Disclosure Requirements

Commencing from 1st July 2017, the Bank has to disclose the regulator prescribed key information in relation to regulatory capital, liquidity and risk management with the published financial statements and the in the web site.

Pillar 3 aims to provide consistent and comprehensive disclosure framework that enhances comparability between banks and further promotes improvements in risk practices.

The Bank has implemented a Pillar 3 policy and procedure framework to address the requirements laid down for pillar 3 disclosure.

The complete disclosure report of information regarding capital management in accordance with Basel III-Pillar 3 is provided, of which quantitative information regarding capital structure, capital adequacy and monitoring of liquidity standards is disclosed on quarterly basis. The disclosures on Bank's risk management approach and risk management related to key risk exposures will be disclosed on annual basis.

Scope of Application

In compliance with the requirements under Basel III Pillar 3 and the Bank's approved policies, the Bank disclose below set of information on quarterly and annual basis as prescribed by CBSL.

- 1) Regulatory Requirements on Capital Adequacy and Liquidity
 - i) Key Regulatory Ratios Capital and Liquidity
 - ii) Basel III Computation of Capital Adequacy Ratio
 - iii) Basel III Computation of Liquidity Coverage Ratio
 - iv) Main Features of Regulatory Capital Instruments
- 2) Risk Weighted Assets (RWA)
 - i) Capital Management
 - ii) Credit under Standardized Approach Credit Risk Exposures and Credit Risk Mitigation (CRM) Effects
 - iii) Credit Risk under Standardized Approach: Exposures by Asset Classes and Risk Weights
 - iv) Market Risk under Standardized Measurement Method
 - v) Operational Risk under Basic Indicator Approach
- 3) Linkages Between Financial Statements & Regulatory Exposures
 - i) Differences Between Accounting and Regulatory Scopes and Mapping of Financial Statement Categories with Regulatory Risk Categories
 - ii) Explanations of Differences Between Accounting and Regulatory Exposure Amounts
- 4) Risk Management
 - i) Bank Risk Management Approach
 - ii) Risk Management related to Key Risk Exposures

Stay above the Minimum Capital and Liquidity Standards

The Bank was in success of maintaining capital and liquidity ratios effective under Basel III accord above the minimum standards stipulated by the regulator during first half of year 2018.

Table A - Key Regulatory Ratios - Capital and Liquidity

Item	Ba	nk
	Current Period	Previous Period
	As at 30/06/2018	As at 31/12/2017

Statutory Liquid Assets Ratio (Minimum Requirement - 20%)		
Domestic Banking Unit (%)	24.68	23.25
Off-Shore Banking Unit (%)	20.60	27.04
Liquidity Coverage Ratio (%) (Minimum Requirement - 90%)		
Rupee	168.98	208.84
All Currency	150.67	195.36

Capital Structure

The Bank's capital structure according to the CBSL direction No. 01 of 2016 on Capital Requirement under Basel III for Licensed Commercial Banks (LCB) and Licensed Specialized Banks (LSB) is revised in to Common Equity Tier 1 Capital, Additional Tier 1 Capital and Tier 2 Capital.

Common Equity Tier 1 (CET 1) Capital of the Bank comprises;

- ➤ Paid up Share Capital (Stated Capital)
- > Retained Earnings after appropriation
- > Statutory Reserve Fund

At present Bank has no instrument eligible for Additional Tier 1 (AT1) Capital.

Tier 2 Capital Consist of

- ➤ Subordinated Debentures (limited to 50% of CET 1 Capital)
- ➤ General provision for Performing and Special Mention Credit Facilities (limited to 1.25% of risk weighted assets on credit risk)
- Revaluation Surpluses on Freehold Land and Building (Subject to discount of 50%)

As per the regulatory directive maximum eligible Tier 2 capital is capped at 100% of CET1 Capital.

Main features of capital instruments have been disclosed in the Table C of the report.

The Structure of the total Regulatory Capital of the Bank as at 30th June 2018 is as follows,

Item	Amount
Helli	(Rs. '000)
Common Equity Tier I (CETI) Capital after Adjustments	10,581,802
Total Common Equity Tier I (CET1) Capital before Adjustments	10,858,824
Stated Capital	3,614,253
Reserve Fund	374,106
Published Retained earnings	6,870,465
Total Adjustments to CET1 Capital	277,022
Other Intangible Assets (net)	277,022
Additional Tier 1 (AT1) Capital after Adjustments	-
Tier 2 Capital after Adjustments	1,578,234
Total Tier 2 Capital	1,578,234
Qualifying Tier 2 Capital Instruments	750,000
Revaluation Gains	313,611
General Provisions	514,623
Total Adjustments to Tier 2 Capital	-
Total Tier 1 Capital	10,581,802
Total Capital	12,160,036

Internal Capital Generation

The Bank obtained the Certification of External Auditors for the profit for 06 months ended 30th June 2018. Accordingly, Rs. 819.57 million new capital has been infused to the Bank's CET 1 Capital in June 2018.

^{*} As per the regulatory directions, commencing from 01.01.2018 onwards all foreign claims on Central Government of Sri Lanka is needed to be risk weigh at 20%. Accordingly, the Bank's investments in Sri Lanka Development Bonds have been risk weighted at 20% commencing from 01st January 2018.

Liquidity Coverage Ratio

The Liquidity Coverage Ratio (LCR) ensures Banks maintaining sufficient unencumbered High Quality Liquid assets (HQLA) to survive a significant liquidity stress scenario over 30 days horizon. The Central Bank of Sri Lanka issued Banking Act Direction No. 01 of 2015 on "Liquidity Coverage Ratio under Basel III Liquidity Standards for Licensed Commercial Banks" on 31st March 2015.

Commencing from 1st April 2015, the Bank has to maintain LCR Ratio for all currencies and for rupee as stipulated in the direction. The ratio which initially starts from 60% minimum requirement will be increased up to 100% on a staggered basis by 1st January 2019.

Liquid assets are distributed across the Bank to support regulatory and internal requirements and are consistent with the distribution of liquidity needs by currency. The composition of the high quality liquid asset portfolio has remained relatively stable over the previous period. The Bank has to maintain 90% as LCR for year 2018 for both Rupee and all currencies.

over the Next 30 Calendar Days)					
*100					

The Bank monitors its LCR position on a daily basis, ensuring a buffer is maintained over the minimum regulatory requirement and the Board's risk appetite. The Bank holds a diverse mix of High Quality Liquid Assets (HQLA), consisting primarily of cash and Government securities (Level 1 Liquid Assets. In addition, the Bank maintains level 2 Liquid Assets such as in gilt edged investments)

Risk Weighted Assets

Credit Risk

Credit Risk is the potential for loss due to the failure counterparty to meet its obligation to pay the Bank in accordance with agreed terms. It is managed through a framework that setout credit policies and procedure and credit approval authority delegation. Further policies are decided to reflect the country specific risk environment and portfolio characteristics of the Bank.

The Bank computes risk weighted assets on credit exposures using the Standardized approach. In assigning risk weights for calculation of risk weighted assets using the standardized approach under Basel III, the Bank uses credit ratings from external credit assessment institutions (ECAIs) who meet the qualifications specified by the CBSL. The credit ratings from external credit assessment institutions are applied to risk weight the claims on Banks, financial institutions and corporate customers. Claims on Retail and SME customers are risk weighted based on the criteria's specified in the directions.

The following table shows minimum capital requirement for credit risk classified by asset classes under Standardized approach.

Table E- Credit Risk under Standardized Approach: Credit Risk Exposures and Credit Risk Mitigation (CRM) Effects

		Amount	(LKR'000) as a	t 30.06.2018

(ii) RWA Density - Total RWA/Exposures post CCF and CRM

Market Risk

Market risk is the potential for loss of earnings or economic value due to adverse changes in financial market rates or prices. It is managed under the market risk policies and processes to obtain the best balances of risk and return whilst meeting customer requirements.

The market risk subject to the capital charge requirements are:

- > The Risk pertaining to Interest rate related instruments in the trading portfolios
- ➤ The Risk pertaining to the equities in the trading portfolios
- > The Risk pertaining to the foreign exchange position.

The Bank follows the Standardized measurement method for computing the capital charge for exposures capture under market risk.

Below shows the RWA for market risk under Standardized Approach method:

Table F - Market Risk under Standardized Measurement Method

	Item	RWA Amount (LKR'000)
	2001	As at 30/06/2018

	ighted Amount for Market Risk (al of Total Capital Ratio)	((a+b+c) * 352,015

Operational Risk

Operational risk is the potential for loss arising from the failure of people, processes or technology or the impact of external events. Operational risk exposures are managed through a set of processes that drive risk identification, assessment, control and monitoring. The senior management team under the guidance of the Board is responsible for overseeing potential risk across the Bank.

The Bank computes capital charges for operational risk based on the Basic Indicator Approach (BIA). When compared to other approaches, BIA is not an advanced approach. Therefore, the Bank is in the process of collecting information to move to 'The Standardized Approach (TSA)' with the prior approval of CBSL.

Capital Requirement under BIA is given below;

Table G - Operational Risk under Basic Indicator Approach
